SECTION 2

DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

Article 2

General Requirements

1. For the purposes of implementing this Agreement, the following products shall be considered as originating in the European Union:

- (a) products wholly obtained in the European Union within the meaning of Article 5; and
- (b) products obtained in the European Union incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the European Union within the meaning of Article 6.

2. For the purposes of implementing this Agreement, the following products shall be considered as originating in a signatory Andean Country:

- (a) products wholly obtained in that signatory Andean Country within the meaning of Article 5; and
- (b) products obtained in a signatory Andean Country incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in that signatory Andean Country within the meaning of Article 6.

Article 3

Cumulation of Origin

1. Materials originating in the European Union shall be considered as materials originating in a signatory Andean Country when incorporated into a product obtained there. It shall not be necessary for such materials to have undergone sufficient working or processing in that signatory Andean Country, provided they have undergone working or processing going beyond that referred to in Article 7.

2. Materials originating in a signatory Andean Country shall be considered as materials originating in the European Union or in another signatory Andean Country when incorporated into a product obtained there. It shall not be necessary for such materials to have undergone sufficient working or processing in the European Union or in such other signatory Andean Country, provided that they have undergone working or processing going beyond that referred to in Article 7.

3. Notwithstanding paragraphs 1 and 2, materials originating in Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama, Venezuela or in a Member Country of the Andean Community which is not a Party to this Agreement shall be considered as materials originating in a signatory Andean Country when further processed or incorporated into a product obtained there.

4. In order for the products referred to in paragraph 3 to acquire originating status, it shall not be necessary for the materials to have undergone sufficient working or processing, provided that:

- (a) the working or processing of the materials carried out in the signatory Andean Countries went beyond the operations referred to in Article 7;
- (b) the materials originated in one of the countries listed in paragraph 3, in application of rules of origin identical to those applicable if such materials were exported directly to the European Union ⁽¹⁾; and
- (c) existing arrangements in force between the signatory Andean Countries and the other countries referred to in paragraph 3 allow for adequate administrative cooperation procedures ensuring full implementation of this paragraph, as well as of Article 15 on certification and of Article 31 on verification of the originating status of the products.

5. The originating status of materials exported from a country referred to in paragraph 3 to a signatory Andean Country to be used in further working or processing shall be established by a proof of origin under which these materials could be exported directly to the European Union.

⁽¹⁾ In the case where one of the countries listed in paragraph 3 is not a beneficiary of a preferential regime of the European Union, the rules of this Agreement shall apply.

6. Proof of the originating status acquired under the terms of paragraph 4, of products exported to the European Union, shall be established by a movement certificate EUR.1 issued or an invoice declaration made out in the exporting country in accordance with the provisions of Section 4 (Proof of Origin). These documents shall bear the mention "cumulation with [name of country]".

Article 4

Cumulation of Origin with Other Countries

1. At the request of a signatory Andean Country or the European Union, materials originating in a Central American ⁽¹⁾, South American or Caribbean country (hereinafter referred to in this Article as a "non-Party") shall be considered as materials originating, respectively, in a signatory Andean Country or in the European Union when further processed or incorporated into a product obtained there.

2. The request referred to in paragraph 1 shall be addressed to the Subcommittee on Customs, Trade Facilitation and Rules of Origin (hereinafter referred to as "the Subcommittee") in accordance with Article 68, subparagraph 2(f) of this Agreement.

3. In order for the products referred to in paragraph 1 to acquire originating status, it shall not be necessary for the materials to have undergone sufficient working or processing, provided that:

- (a) the working or processing of the materials carried out in the signatory Andean Countries or in the European Union went beyond the operations referred to in Article 7;
- (b) the materials originated in a non-Party, in application of rules of origin identical to those applicable if such materials were exported directly to the signatory Andean Countries or to the European Union, respectively; and
- (c) the signatory Andean Countries, the European Union and the non-Party or non-Parties concerned have an arrangement on adequate administrative cooperation procedures which will ensure full implementation of this paragraph as well as of Article 15 on certification and of Article 31 on verification of the originating status of the products.

4. The Parties shall agree, within the Subcommittee, on the materials to which this Article shall apply.

5. The cumulation established in this Article may be applied provided that:

- (a) preferential trade agreements that are in conformity with Article XXIV of the GATT 1994 between the signatory Andean Countries and the non-Party concerned, and between the European Union and such non-Party, respectively, are in force;
- (b) cumulation provisions equivalent to the ones provided for under this Article are contained in the agreements referred to under subparagraph (a), in order for the cumulation provisions to apply in a reciprocal manner between the signatory Andean Countries, the European Union and the non-Party or non-Parties concerned, respectively; and
- (c) notices indicating the fulfilment of the necessary requirements to apply cumulation under this Article have been published in the Official Journal of the European Union (C series), and in the official publications of the signatory Andean Countries and of the non-Party or non-Parties concerned, according to their own procedures.

6. The Parties may agree within the Subcommittee on additional conditions for the application of this Article.

Article 5

Wholly Obtained Products

1. The following products shall be considered as wholly obtained in the European Union or in a signatory Andean Country:

- (a) mineral products extracted from their soil, subsoil or from their seabed;
- (b) vegetable products collected or harvested there;

⁽¹⁾ This reference includes the United States of Mexico.

- (c) live animals born and raised there;
- (d) products obtained from live animals raised there;
- (e) (i) products obtained by hunting or fishing conducted there;
 - (ii) products of aquaculture, including mariculture, where the fish, crustaceans, molluscs and other aquatic invertebrates are born or raised there;
- (f) products of sea fishing and other products taken from the sea by their vessels ⁽¹⁾;
- (g) products made aboard their factory ships exclusively from products referred to in subparagraph (f);
- (h) raw materials recovered from used goods collected there;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) products extracted from marine soil or subsoil outside the territory of the European Union or of a signatory Andean Country, provided that they have rights to work that soil or subsoil; and
- (k) goods produced there exclusively from the products specified in subparagraphs (a) to (j).

2. The terms "their vessels" and "their factory ships" in subparagraphs 1(f) and 1(g) shall apply only to vessels and factory ships which comply with the conditions established in the Declarations attached to this Annex, which constitute an integral part of this Agreement.

Article 6

Sufficiently Worked or Processed Products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Appendix 2 (hereinafter referred to as "the list") are fulfilled.

2. The conditions referred to in paragraph 1 indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing those products, and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. Notwithstanding paragraphs 1 and 2, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 percent of the ex-works price of the product; and
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System.

4. Paragraphs 1, 2 and 3 shall apply subject to the provisions of Article 7.

Article 7

Insufficient Working or Processing Operations ⁽²⁾

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating product, regardless of whether the requirements of Article 6 are satisfied:

- (a) preserving operations to ensure that the products remain in good condition during transport and storage;
- (b) breaking-up and assembly of packages;

⁽¹⁾ For the purposes of this subparagraph, products of sea fishing and other products taken from the sea by vessels of an European Union Member State within 200 nautical miles from the baselines of a signatory Andean Country shall be regarded as originating in that signatory Andean Country; while products of sea fishing and other products taken from the sea by vessels of a signatory Andean Country within 200 nautical miles from the baselines of a European Union Member State shall be regarded as originating in that European Union Member State.

⁽²⁾ For the purposes of this Article, "simple" generally describes activities which need neither special skills nor machines, apparatus or equipment especially produced or installed for carrying out the activity. Simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

- (c) washing, cleaning, removal of dust, oxide, oil, paint or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
- (g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;
- (h) peeling, stoning and shelling of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing ⁽¹⁾ marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds; mixing of sugar with any material;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) slaughter of animals; and
- (p) a combination of two or more operations specified in subparagraphs (a) to (o).

2. All operations carried out either in the European Union or in a signatory Andean Country on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 8

Unit of Qualification

1. The unit of qualification for the application of the provisions of this Annex shall be that of the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System. It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification; and
- (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Annex.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, such packaging shall be included for the purposes of determining origin ⁽²⁾.

Article 9

Accessories, Spare Parts and Tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

⁽¹⁾ Printing of marks, labels, logos and such distinguishing signs on paper or plastic substrate shall not be considered as an insufficient working or processing operation within the meaning of Article 7 paragraph 1, where the resulting printed article constitutes the final product to be exported under preferences. For example: the manufacture and export of self-adhesive labels; or the manufacture and export of labelled packaging for goods, such as plastic potato chips bags.

However, the fact that the operation is not considered insufficient shall not at the same time be taken to mean that such an operation automatically confers origin. For this, the specific rule in Appendix 2 for the product concerned must be fulfilled.

⁽²⁾ When the products qualify as wholly obtained, the packaging shall not be taken into consideration for the purposes of determining origin.

*Article 11***Neutral Elements**

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following elements which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools; or
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

SECTION 3

TERRITORIAL REQUIREMENTS*Article 12***Principle of Territoriality**

1. The conditions set out in Section 2 relating to the acquisition of originating status must be fulfilled without interruption in the European Union or in the signatory Andean Countries.

2. If originating goods exported from the European Union or from the signatory Andean Countries to another country that is not a Party to this Agreement return, such goods shall be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

- (a) the returning goods are the same as those exported; and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

*Article 13***Direct Transport**

1. The preferential treatment provided for under this Agreement applies only to products satisfying the requirements of this Annex, which are transported directly between the European Union and the signatory Andean Countries. However, products may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or temporary warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

2. Originating products may be transported by pipeline across territory other than that of the European Union or the signatory Andean Countries.

3. Evidence that the conditions set out in paragraphs 1 and 2 have been fulfilled shall be supplied, upon request, to the customs authorities of the importing Party by the submission of:

- (a) transportation documents, such as airway bills, bills of lading, cargo manifest, or multimodal, or combined transportation documents, that certify transport from the country of origin to the importing Party;
- (b) customs documents that authorise the trans-shipment or temporary storage; or
- (c) failing these, any substantiating documents.

*Article 14***Exhibitions**

1. Originating products, sent for exhibition in a country other than the European Union and the signatory Andean Countries and sold after the exhibition for importation in the European Union or in the signatory Andean Countries shall benefit on importation from the provisions of this Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from the European Union or from the signatory Andean Countries to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in the European Union or in the signatory Andean Countries;
- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Section 4 and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the goods have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

SECTION 4

PROOF OF ORIGIN

Article 15

General Requirements

1. Products originating in the European Union shall, on importation into the signatory Andean Countries, and products originating in a signatory Andean Country shall, on importation into the European Union, benefit from this Agreement upon presentation, in accordance with the domestic law of the importing Party, of:

(a) a movement certificate EUR.1, specimen of which appears in Appendix 3; or

(b) in the cases specified in Article 20, paragraph 1, a declaration (hereinafter referred to as the "invoice declaration") given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the invoice declaration appears in Appendix 4.

2. Notwithstanding paragraph 1, originating products within the meaning of this Annex shall, in the cases specified in Article 25, benefit from this Agreement without it being necessary to submit any of the documents referred to above.

Article 16

Procedure for the Issuance of a Movement Certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the competent authorities or customs authorities of the exporting Party on application having been made in writing by the exporter or, under the exporter's responsibility, by his/her authorised representative.

2. For the purposes of paragraph 1, the exporter or his/her authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Appendix 3. These forms shall be completed in any of the languages listed in Article 337 of this Agreement and in accordance with the provisions of the domestic law of the exporting Party. If they are hand-written, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the competent authorities or customs authorities of the exporting Party where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex.

4. A movement certificate EUR.1 shall be issued by the competent authorities or customs authorities of a Member State of the European Union or of the signatory Andean Countries if the products concerned can be considered as products originating in the European Union or in the signatory Andean Countries and fulfil the other requirements of this Annex.

5. The competent authorities or customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Annex. For this purpose, such authorities shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The said authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, the competent authorities or customs authorities shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the competent authorities or customs authorities and made available to the exporter as soon as the actual exportation has been effected or ensured.

Article 17

Movement Certificate EUR.1 Issued Retrospectively

1. Notwithstanding Article 16, paragraph 7, a movement certificate EUR.1 may exceptionally be issued after the exportation of the products to which it relates if:

- (a) a movement certificate was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
- (b) it is demonstrated to the satisfaction of the competent authorities or customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter shall indicate in his/her application the place and date of exportation of the products to which the movement certificate EUR.1 relates and state the reasons for his/her request.

3. The competent authorities or customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application coincides with that in the corresponding file.

4. Movement Certificates EUR.1 issued retrospectively shall be endorsed with one of the following phrases:

Article 18

Issuance of a Duplicate Movement Certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the competent authority or customs authority which issued such certificate for a duplicate made out on the basis of the export documents in their possession.

Article 19

Issuance of Movement Certificates EUR.1 on the Basis of a Proof of Origin previously issued or Made out

When originating products are placed under the control of a customs authority in the European Union or of a signatory Andean Country, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the European Union or the signatory Andean Countries. The replacement movement certificate(s) EUR.1 shall be issued by the competent authority or by the customs authority, in this last case, under whose control the products are placed.

Article 20

Conditions for Making Out an Invoice Declaration

1. An invoice declaration as referred to in Article 15, subparagraph 1(b), may be made out:

(a) by an approved exporter within the meaning of Article 21, or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed 6 000 euro.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in a Party and fulfil the other requirements of this Annex.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the competent authorities or customs authorities of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration the text of which appears in Appendix 4, using one of the linguistic versions set out in that Appendix and in accordance with the provisions of the domestic law of the exporting Party. If the declaration is hand-written, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 21 shall not be required to sign such declarations provided that the exporter gives the competent authorities or customs authorities of the exporting Party a written undertaking that s/he accepts full responsibility for any invoice declaration which identifies him/her as if it had been signed in manuscript by him/her.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing Party no longer than two years after the importation of the products to which it relates.

Article 21

Approved exporter

1. The competent authorities or customs authorities of the exporting Party may authorise any exporter (hereinafter referred to as "approved exporter") who makes frequent shipments of products under this Agreement, to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the competent authorities or customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Annex.

2. The competent authorities or customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The competent authorities or customs authorities shall grant the approved exporter an authorisation number which shall appear on the invoice declaration.

4. The competent authorities or customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The competent authorities or customs authorities may withdraw the authorisation at any time. Such authorities shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

*Article 22***Validity of Proof of Origin**

1. A proof of origin shall be valid for 12 months from the date a movement certificate EUR.1 is issued, or from the date an invoice declaration is made out in the exporting Party. Such proof of origin must be presented within the said period to the customs authorities of the importing Party, in accordance with its domestic law.
2. Proofs of origin which are submitted to the customs authorities of the importing Party after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of late presentation, the customs authorities of the importing Party may accept, in accordance with their domestic law, the proofs of origin where the products have been submitted before the said final date.
4. For the purposes of applying paragraphs 2 and 3, if a proof of origin is not presented at the time of importation, the importer must declare to the customs authorities of the importing Party the intention of requesting preferential tariff treatment for the products concerned.

*Article 23***Submission of Proof of Origin**

Proofs of origin shall be submitted to the customs authorities of the importing Party in accordance with the procedures applicable in that Party. The said authorities may require a translation of a proof of origin and the import declaration to be accompanied by a statement from the importer that the products meet the conditions required for benefiting from the application of this Agreement.

*Article 24***Importation by Instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

*Article 25***Exemptions from Proof of Origin**

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade, have been declared as meeting the requirements of this Annex and there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration may be made on the customs declaration or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. The total value of the products referred to in paragraphs 1 and 2 shall not exceed:
 - (a) for importation into the European Union, 500 euro in the case of small packages or 1 200 euro in the case of products forming part of travellers' personal luggage;
 - (b) for importation into a signatory Andean Country, 2 000 US dollars in the case of small packages, or 1 000 US dollars in the case of products forming part of travellers' personal luggage.
4. For the purposes of paragraph 3, in cases where the products are invoiced in a currency other than euro or US dollars, amounts in the national currencies of the Parties equivalent to the amounts expressed in euro or US dollars shall be fixed in accordance with the current exchange rate applicable in the importing Party.

*Article 26***Supporting Documents**

The documents referred to in Articles 16, paragraph 3 and 20 paragraph 3 used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in a Party and fulfil the other requirements of this Annex, may consist, *inter alia*, of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in their accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the European Union or in the signatory Andean Countries, where these documents are used in accordance with their respective domestic law;
- (c) documents proving the working or processing of materials in the European Union or in the signatory Andean Countries, issued or made out in the European Union or in the signatory Andean Countries, where these documents are used in accordance with their respective domestic law; or
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in a Party in accordance with this Annex.

*Article 27***Preservation of Proof of Origin and Supporting Documents**

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 16, paragraph 3.
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 20, paragraph 3.
3. The competent authorities or customs authorities of the exporting Party issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 16, paragraph 2.
4. The customs authorities of the importing Party or the importer, according to domestic law of the importing Party, shall keep for at least three years the movement certificates EUR.1 and the invoice declarations presented to or by them.

*Article 28***Discrepancies and Formal Errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products, shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors, such as typing errors, on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

*Article 29***Amounts Expressed in Euro**

1. For the application of the provisions of Article 20, subparagraph 1(b) and Article 25, paragraph 3 in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the European Union Member States equivalent to the amounts expressed in euro shall be fixed annually by the European Union and submitted to the signatory Andean Countries.

2. A consignment shall benefit from the provisions of Article 20 subparagraph 1(b) or Article 25 paragraph 3 having as reference the currency in which the invoice is drawn up, according to the amount fixed by the European Union.

3. The amounts to be used in any given national currency of the European Union Member States shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The European Commission shall notify the signatory Andean Countries of these amounts by 15 October and these amounts shall apply from 1 January the following year.

4. The Member States of the European Union may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than five per cent. The Member States of the European Union may retain unchanged their national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Subcommittee at the request of a Party. When carrying out this review, the Subcommittee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, the Subcommittee may decide to modify the amounts expressed in euro.

SECTION 5

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 30

Cooperation between Competent Authorities

1. The competent authorities or customs authorities of the European Union Member States and of the signatory Andean Countries shall provide each other, through the European Commission, with specimen impressions of stamps used for the issue of movement certificates EUR.1 and with the addresses of the competent authorities or customs authorities responsible for verifying those certificates and invoice declarations.

2. The competent authorities or customs authorities of the European Union Member States and of the signatory Andean Countries shall provide each other, through the European Commission, information about the structure of the authorisation numbers for approved exporters. The competent authorities and customs authorities shall cooperate, through their contact points, should there be a need for further consultation on these numbers.

3. Any changes to the elements referred to in paragraph 1 or 2 shall be notified by the competent authorities or the customs authorities of the Party concerned to the competent authorities or the customs authorities of the other Parties without undue delay, indicating the date when these changes come into effect.

4. In order to ensure the proper application of this Annex, the European Union and the signatory Andean Countries shall assist each other, through the competent authorities or customs authorities, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 31

Verification of Proofs of Origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the competent authorities or customs authorities of the importing Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Annex.

2. For the purposes of implementing paragraph 1, the competent authorities or customs authorities of the importing Party shall return the movement certificate EUR.1 and the invoice, if submitted, or a copy of these documents, to the competent authorities or customs authorities of the exporting Party giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the competent authorities or customs authorities of the exporting Party. For this purpose, such authorities shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the competent authorities or customs authorities of the importing Party decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The competent authorities or customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in a Party and fulfil the other requirements of this Annex.

6. If in cases of reasonable doubt there is no reply within 10 months of the date of the verification request, or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting competent authorities or customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. For the purposes of this Article, working communications between the competent authorities or customs authorities of the importing and the exporting Parties shall be conducted in English or in Spanish languages, or shall be accompanied by a translation in English or Spanish.

Article 32

Dispute Settlement

1. Where disputes arise in relation to the verification procedures of Article 31 which cannot be settled between the competent authority or customs authority requesting a verification and the competent authority or customs authority responsible for carrying out this verification, or where questions arise regarding the interpretation of this Annex, they shall be submitted to the Subcommittee.

2. In case a satisfactory solution is not agreed, the affected Party may resort to the dispute settlement mechanism under Title XII (Dispute Settlement) of this Agreement. In that case, the consultations carried out in the Subcommittee shall be taken into consideration for the procedure of consultations established in the dispute settlement mechanism.

3. Any case regarding a dispute between an importer and the competent authority or customs authority of the importing Party shall be settled under the legislation of that Party.

Article 33

Penalties

Penalties shall be imposed, in accordance with the respective domestic legislation of each Party, on any person who draws up, or causes a document to be drawn up, which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 34

Free zones

1. The Parties shall take all necessary measures to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their respective territory, are not substituted by other products and do not undergo handling other than normal operations designed to prevent their deterioration.

2. Notwithstanding paragraph 1, when products originating in the European Union or in a signatory Andean Country enter into a free zone situated in their territory under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Annex.

SECTION 6

CEUTA AND MELILLA

Article 35

Application of this Annex

1. The term "European Union" used in Article 2 does not cover Ceuta and Melilla.
2. Products originating in a signatory Andean Country, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the European Union under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities. The signatory Andean Countries shall grant to imports of products covered by this Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the European Union.
3. For the purposes of the application of paragraph 2 with respect to products originating in Ceuta and Melilla, this Annex shall apply *mutatis mutandis* subject to the special conditions set out in Article 36.

Article 36

Special conditions

1. Provided that they have been transported directly in accordance with the provisions of Article 13, the following shall be considered as:
 - (a) products originating in Ceuta and Melilla:
 - (i) products wholly obtained in Ceuta and Melilla; or
 - (ii) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in subparagraph 1(a)(i) are used, provided that:
 - (A) the said products have undergone sufficient working or processing within the meaning of Article 6;
or that
 - (B) those products are originating in a signatory Andean Country or in the European Union, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7;
 - (b) products originating in a signatory Andean Country:
 - (i) products wholly obtained in such signatory Andean Country; or
 - (ii) products obtained in that signatory Andean Country, in the manufacture of which products other than those referred to in subparagraph 1(b)(i) are used, provided that:
 - (A) the said products have undergone sufficient working or processing within the meaning of Article 6;
or that
 - (B) those products are originating in Ceuta and Melilla or in the European Union, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7.
2. Ceuta and Melilla shall be considered as a single territory.
3. The exporter or his/her authorised representative shall enter "Colombia" or "Peru" and "Ceuta and Melilla" in Box 2 of movement certificate EUR.1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificate EUR.1 or on invoice declarations.
4. The Spanish customs authorities shall be responsible for the application of this Annex in Ceuta and Melilla.

SECTION 7

FINAL PROVISIONS*Article 37***Modifications to this Annex**

Pursuant to Article 13, subparagraph 2(g)(iii) of this Agreement, the Trade Committee may decide to modify the provisions of this Annex.

*Article 38***Transitional Provisions for Products in Transit or Storage**

This Agreement may apply to products which comply with the provisions of this Annex and which, on the date of entry into force of this Agreement, are either in transit or are in a Party in temporary storage in customs warehouses or in free zones, subject to the submission to the customs authorities of the importing Party, within 12 months of that date, of a proof of origin made out retrospectively together with the documents showing that the goods have been transported directly in accordance with Article 13.

*Appendix 1***INTRODUCTORY NOTES TO THE LIST IN APPENDIX 2****Note 1:**

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of this Annex.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this means that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the corresponding chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1. The provisions of Article 6 of this Annex, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the European Union or in the signatory Andean Countries.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 50 per cent of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading ex 7224.

If this forging has been forged in the European Union from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the European Union. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression 'manufacture from materials of any heading', materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression 'manufacture from materials of any heading, including other materials of heading ...' or 'manufacture from materials of any heading, including other materials of the same heading as the product' means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used, but does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)

- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,

- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 per cent of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is only a mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 per cent in respect of this yarn.
- 5.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film', this tolerance is 30 per cent in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; and decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation; and
 - (i) isomerisation.
- 7.2. For the purposes of headings 2710, 2711 and 2712, the 'specific processes' are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; and decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation;
 - (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 per cent of the sulphur-content of the products processed (ASTM D 1266-59 T method);
 - (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
 - (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge; and

- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 per cent of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

2. Assistance in customs matters, as provided for in this Annex, shall apply to any administrative authority of the Parties which is competent for the application of this Annex. This shall not prejudice the rules governing mutual assistance in criminal matters, nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by the said authority.
3. Assistance to recover duties, taxes or fines is not covered by this Annex.

Article 3

Assistance on Request

1. Upon request of an applicant authority, the requested authority shall provide it with all relevant information that may enable it to

4. If a request does not meet the requirements set out in paragraphs 2 and 3, its correction or completion may be requested; in the

meantime precautionary measures may be ordered, according to the laws, rules and legal instruments of the Party concerned.

Article 7

Execution of Requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

Article 9

Exceptions to the Obligation to Provide Assistance

1. Assistance may be refused or may be subject to certain conditions or requirements being satisfied, where a Party is of the opinion that assistance under this Annex would:

In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

2. Personal data may be exchanged only where the Party which may receive them undertakes to protect such data in at least an equivalent way to that applicable in that particular case in the Party that may supply them.

3. A Party may refuse to provide the information requested by another Party where the latter has not acted in conformity with the provisions of paragraph 2.

4. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Annex, is considered to be for the purposes of this Annex. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the

courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Annex. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

5. Information obtained pursuant to this Annex shall be used solely for the purposes of the application of the latter. Where a Party wishes to use such information for other purposes, such Party shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

the customs authorities of the European Union Member States of any information obtained under this Annex which could be of interest to the European Union.

2. Notwithstanding the provisions of paragraph 1, the provisions of this Annex shall prevail over the provisions of any bilateral agreement on mutual assistance which has been or may be concluded between an European Union Member State and a signatory Andean Country insofar as the provisions of the latter are incompatible with those of this Annex.

*Appendix 3***GUIDELINES FOR CONDUCTING VERIFICATIONS**

Verifications may be carried out on the basis of audits and/or on-the-spot inspections.

For the purposes of this Annex:

- The "auditee" is the Party subject to the verification;
- The "auditor" is the Party that carries out the verification.

1. General Principles of Verification

- (a) verifications shall be carried out in cooperation between the auditor and the auditee in accordance with the provisions set out in this Appendix;
- (b) verifications shall aim at verifying the effectiveness of the controls of the auditee rather than at rejecting individual animals, groups of animals, consignments of food establishments or individual lots of plants or plant products; where verification reveals a serious risk to animal, plant or human health, the auditee shall take immediate corrective action. The process may include the study of the relevant regulations, the method of implementation, the assessment of the end result, the level of compliance and subsequent corrective actions;
- (c) the frequency of verifications shall be based on performance. A low level of performance should result in an increased frequency of verifications. Unsatisfactory performance shall be corrected by the auditee to the auditor's satisfaction;
- (d) verifications, and the decisions based on them, shall be made in a transparent and consistent manner.

2. Principles Relating to the Auditor

The auditors shall prepare a plan, preferably in accordance with recognised international standards, that covers the following points:

- (a) the subject, depth and scope of the verification;
- (b) the date and place of the verification, along with a timetable up to and including the issue of the final report;
- (c) the language or languages in which the verification will be conducted and the report written;
- (d) the identity of the auditors including, if a team approach is used, the leader; specialised professional skills may be required to carry out verification of specialised systems and programmes; and
- (e) a schedule of meetings with competent officials and visits to the establishments or facilities, as appropriate; the identity of establishments or facilities to be visited need not be stated in advance.

Subject to provisions on freedom of information, respect of commercial confidentiality shall be observed by the auditor. Conflicts of interest must be avoided.

3. Principles Relating to the Auditee

In order to facilitate verification, the following principles shall apply to actions taken by the auditee:

- (a) the auditee shall cooperate fully with the auditor and shall designate personnel responsible for this task; cooperation may include, for example:
 - (i) access to all relevant regulations and standards;
 - (ii) access to compliance programmes and relevant records and documents;
 - (iii) access to audit and inspection reports;
 - (iv) access to documentation concerning corrective actions and sanctions; and

(v) facilitating entry to establishments;

(b) the auditee shall carry out a documented programme to demonstrate to the auditor that standards are being met on a consistent and uniform basis.

4. Procedures

(a) Opening meeting

An opening meeting shall be held between representatives of the Parties. At this meeting, the auditor shall be responsible for reviewing the verification plan and confirming that adequate resources, documentation, and any other necessary means are available for conducting the verification.

(b) Document review

The document review may consist in the examination of the documents and records referred to in subparagraph 3(a), the structures and competences of the auditee, and any relevant changes to inspection and certification systems since the entry into force of this Agreement or after the last verification, with emphasis on the implementation of elements of the system of inspection and certification for animals, animal products plants or plant products of interest. This may include an examination of relevant inspection and certification records and documents.

(c) on-the-spot inspections

(i) to decide if an on-the-spot inspection should be carried out, the risk of the relevant animal, plant or animal or plant product should be considered, taking into account factors such as the history of conformity of the industry sector or exporting Party with requirements, the volume of product produced and imported or exported, changes in infrastructure and the domestic inspection and certification systems;

(ii) on-the-spot inspections may involve visits to production and manufacturing facilities, food-handling or storage areas and control laboratories to check on compliance with the information contained in the documentary material referred to in subparagraph (b) above.

(d) Follow-up verification

Where a follow-up verification is being conducted in order to verify the correction of deficiencies, it may be sufficient to examine only those points which have been found to require correction.

5. Working documents

Forms for reporting audit findings and conclusions should be standardised as much as possible in order to make the approach to verification more uniform, transparent and efficient. The working documents may include any checklist of elements to evaluate. Such checklists may cover:

(a) legislation;

(b) structure and operations of inspection and certification services;

(c) establishment details and working procedures, health statistics, sampling plans and results;

(d) compliance action and procedures;

(e) reporting and complaint procedures; and

(f) training programmes.

6. Closing Meeting

A closing meeting shall be held between representatives of the Parties involved, including, where appropriate, officials responsible for the national inspection and certification programmes. At this meeting, the auditor shall present the findings of the verification. The information shall be presented in a clear and concise manner, so that the conclusions of the audit are clearly understood. An action plan for correction of any deficiencies noted shall be drawn up by the auditee, preferably with target dates for completion.

7. Report

The draft report of verification shall be forwarded to the auditee within 45 working days following the closing meeting referred to in paragraph 6. The auditee shall have 30 working days to comment on the draft report. Comments made by the auditee shall be attached to and, where appropriate, included in the final report. However, where a significant public, animal or plant health risk has been identified during the verification, the auditee shall be informed as soon as possible and, in any case, within 10 working days following the end of the verification.

ANNEX VII

LIST OF COMMITMENTS ON ESTABLISHMENT

(referred to in Article 114 of this Agreement)

SECTION A

COLOMBIA

1. The List of Commitments below indicates the economic activities committed by Colombia pursuant to Article 114 of this Agreement and, by means of reservations, the market access and national treatment limitations that apply to establishments and investors from the other Party in those sectors. The list is composed of the following elements:

- (a) first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalization to which the reservations apply;
- (b) second column describing the applicable reservations and the obligation affected (Market Access or National Treatment). The Market Access and National Treatment commitments are independent; therefore if Market Access is not committed in a sub-sector (remains 'unbound'), this does not invalidate the National Treatment commitment.

The sectors or sub-sectors which are not included in the following list are not committed.

2. In identifying individual sectors and sub-sectors:

- (a) 'ISIC rev 3.1' means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 4, ISIC REV 3.1, 2002; and
- (b) 'CPC' means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, CPC prov, 1991.

3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 112 and 113 of this Agreement. Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

4. In accordance with Article 107 paragraph 3 of this Agreement, the list below does not include measures concerning subsidies or grants granted by the Parties.

5. In accordance with Article 112 of this Agreement, non-discriminatory requirements as regards the types of legal form of an establishment are not included in the list below.

6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

NOTES ON THE LIMITATIONS APPLIED TO SECTORIAL SPECIFIC COMMITMENTS ON ESTABLISHMENT IN SERVICES AND NON SERVICES SECTORS

LIST OF INTERNATIONAL MARITIME TRANSPORT SERVICES

Where road, rail, inland waterways and related auxiliary services are not otherwise fully covered in this List, a multimodal transport operator (as defined in paragraph 3 below) shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations.

'Reasonable and non-discriminatory terms and conditions' means, for the purpose of multimodal transport operations and this additional commitment, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date.

DEFINITIONS

1. In the case of Peru, 'cabotage' or 'commercial water transportation in national traffic' is performed between Peruvian ports, in accordance with the provisions of Article 2 of the Legislative Decree 683 of 2001.
2. 'Other forms of commercial presence for the supply of international maritime transport services' means the ability for international maritime transport service suppliers of the other Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of supply. For greater certainty, this commitment does not grant rights to operate as maritime transport enterprise or national ship enterprise in Peru.

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
 - (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
 - (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
 - (d) the provision of business information by any means, including computerized information systems and electronic data interchange (subject to the provisions of the Section on Telecommunications);
 - (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency; and
 - (f) acting on behalf of the companies, organizing the call of the ship or taking over cargoes when required.
3. 'Multimodal transport operators' means the person on whose behalf the bill of lading, multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
 4. 'Maritime cargo handling services' means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal operator companies. The activities covered include the organization and supervision of:
 - (a) the loading/discharging of cargo to/from a ship;
 - (b) the lashing/unlashing of cargo;
 - (c) the reception/delivery and safekeeping of cargoes before shipment or after discharge.
 5. 'Customs clearance services' (alternatively 'customs house brokers services') means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.

6. 'Container station and depot services' means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.
7. 'Maritime agency services' means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:
- (a) marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
 - (b) acting on behalf of the companies organizing the call of the ship or taking over cargoes when required.
8. 'Freight forwarding services' means the activity consisting of organizing and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

NOTE 2

SPECIALISED AIRPORT SERVICES

For the purposes of this Agreement, 'specialised airport services' shall be understood as the services supplied inside and outside the platform, by national or foreign airport services operators related to services directly provided to aircrafts or for air transport purposes, when specialized equipment or facilities are used for its provision.

The commitments assumed by Peru in 'specialised airport services' are limited to the following sub-sectors:

- (a) Fuel Supply Services: fueling services for aircraft of national and international air operators at the airports in Peru.
- (b) Water, Beverages and Foods Supply Services (catering): attention to the aircraft of national and international air operators at the airports in Peru, regarding the supplying of food, water and beverages.
- (c) Cargo Storage Services: reception, handling, storage and delivery of cargo and mail transported by air domestic and international export and import through the air operators.
- (d) Ground Equipment Support Services at Platform: platform services provided with ground support equipment to national or international air operators at the airports in Peru, for the attention of aircraft, passengers, cargo and personnel. These services include aircraft cleaning services.
- (e) Cargo Terminal Services of the Air Operator of the Carrier: the cargo terminal of the carrier or the responsible for this, for receiving and delivering the goods duly appropriated to the consignee or his agent. It should perform the activities necessary to deliver the goods to the consignee or his representative. This service covers the period since the load is removed from the building of the airfield goods until delivery to the storage terminals for cargo and mail.

ANNEX VIII

LIST OF COMMITMENTS ON CROSS-BORDER SUPPLY OF SERVICES

(referred to in Article 118 of this Agreement)

SECTION A

COLOMBIA

1. The list of commitments below indicates the services sectors committed by Colombia pursuant to Article 118 of this Agreement, and, by means of reservations, the market access and national treatment limitations that apply to services and services suppliers of the other Party in those sectors. The list is composed of the following elements:

- (a) a first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalization to which the reservations apply; and
- (b) a second column describing the applicable reservations, the mode of supply and the obligation affected (Market Access or National Treatment). The Market Access and National Treatment commitments are independent; therefore if Market Access is not committed in a sub-sector (remains 'unbound'), this does not invalidate the National Treatment commitment.

The cross-border supply of services sectors or sub-sectors covered by this Agreement which are not included in the following list is not committed.

2. In identifying individual sectors and sub-sectors:

CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, CPC prov, 1991.

3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 119 and 120 of this Agreement. Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations), even if not listed, apply in any case to service suppliers of the other Party.
4. The list below is without prejudice to the feasibility of Mode 1 in certain services sectors and sub-sectors and without prejudice to the existence of public monopolies and exclusive rights.
5. In accordance with Article 107 paragraph 3 of this Agreement, the list below does not include measures concerning subsidies or grants granted by the Parties.
6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

The activities covered include the organization and supervision of:
- (a) the loading/discharging of cargo to/from a ship;

*Appendix 6***TIME PERIODS**

1. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.
2. Except as provided for in paragraph 3, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:
 - (a) in the case of open tendering, the notice of intended procurement is published; or
 - (b) in the case of selective tendering, the entity notifies the suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.
3. A procuring entity may reduce the time-period for tendering set out in paragraph 2 to not less than 10 days where:
 - (a) the procuring entity published a notice of planned procurement under Article 177 paragraph 2 of this Agreement at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

 - (b) the procuring entity, for procurements of a recurring nature, indicates in an initial notice of intended procurement that subsequent notices will provide time periods for tendering based on this paragraph;
 - (c) a state of urgency duly substantiated by the procuring entity renders such time-period impracticable; or
 - (d) the procuring entity procures commercial goods or services, provided that the single award criterion is the price.
4. A procuring entity may reduce the time-period for tendering set out in paragraph 2 by five days for each one of the following circumstances:
 - (a) the notice of intended procurement is published by electronic means;
 - (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
 - (c) the tenders can be received by electronic means by the procuring entity.
5. The use of paragraph 4, in conjunction with paragraph 3, shall in no case result in the reduction of the time-periods for tendering set out in paragraph 2 to less than 10 days from the date on which the notice of intended procurement is published.
6. Notwithstanding any other time-period in this Appendix, where a procuring entity purchases commercial goods or services, where the awarding criteria is not only the price, it may reduce the time-period for tendering set out in paragraph 2 to not less than 15 days, provided that the procuring entity:
 - (a) publishes by electronic means, at the same time, both the notice of intended procurement and the complete tender documentation; and
 - (b) accepts tenders by electronic means.

As referred to in Article 182 paragraph 1 of this Agreement, unless already provided in the notice of intended procurement, tender documentation shall include a complete description of:

- (a) the procurement, including the nature and quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specification, conformity assessment certification, plans, drawings or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection therewith;

ANNEX XIV

MEDIATION MECHANISM FOR NON-TARIFF MEASURES

SECTION 1

MEDIATION MECHANISM*Article 1***Scope of Application**

The mediation mechanism shall apply to any non-tariff measure considered by a Party to adversely affect trade with another Party and which is related to any matter falling under Title III (Trade in Goods) of this Agreement ⁽¹⁾.

*Article 2***Initiation of the Mediation Procedure**

1. Any Party may request, at any time, that another Party enter a mediation procedure. Such request shall be addressed to that other Party in writing, with copy to the Trade Committee. The request shall include a description of the matter sufficient to present the measure in question and its trade effects clearly.

2. The Party to which such request is made shall accord sympathetic consideration to that request. Within 10 days of the date of receipt of such request, the requested Party shall provide a written reply to the requesting Party, with copy to the Trade Committee, indicating whether it agrees or not to enter the mediation procedure.

*Article 3***Selection of Mediator**

1. Upon launch of the mediation procedure, the Parties to the mediation shall endeavour to agree on a mediator no later than 15 days after the receipt of a positive reply by the requested Party to the request to initiate the mediation procedure. If these Parties fail to reach an agreement on the mediator within the established time period, either Party may request the Chair of the Trade Committee to appoint the mediator by lot. Within five days following the submission of the request, each Party to the mediation shall establish a list of at least three persons who are not nationals of that Party, who fulfil the conditions of paragraph 2 and who may act as mediator. Within five days following the date of submission of the lists, each Party participating in the mediation shall select at least one name from the list submitted by the other Party to the mediation. The Chair of the Trade Committee or the Chair's delegate shall then select the mediator by lot among the selected names. The representatives of both Parties to the mediation shall be invited with due anticipation to be present when lots are drawn. In any event, the lot shall be carried out with any such Parties present at the time within 15 days following the date of the request for the selection of the mediator by lot.

2. Any candidate to act as a mediator shall be an expert on the subject matter to which the measure in question relates ⁽²⁾. The mediator shall assist the Parties to the mediation in an impartial and transparent manner in bringing clarity to the measure and its possible trade effects, and in reaching a mutually agreed solution.

⁽¹⁾ For greater certainty, this mediation mechanism shall not apply to matters covered under Annex II (Concerning the Definition of the Concept of "Originating Products" and Methods for Administrative Cooperation).

⁽²⁾ For example, in cases concerning standards and technical requirements, the mediator should have a background in relevant international standard setting bodies.

*Article 4***Rules of the Mediation Procedure**

1. In the initial stage of the procedure, within 15 days after the appointment of the mediator, the Party invoking the mediation procedure shall present, in writing, a detailed description of the problem to the mediator and to the other Party, in particular of the operation of the measure at issue and its trade effects. Within 10 days after the date of delivery of the submission, the other Party may provide, in writing, its comments to the description of the problem. Either Party may include in its description or comments any information that it deems relevant.

2. The mediator may decide on the most appropriate way of conducting the initial stage, in particular whether to consult the Parties jointly or individually, seek the assistance of or consult with relevant experts and stakeholders of the Parties participating in the mediation.

3. Following the initial stage, the mediator may provide an advisory opinion and propose a solution for consideration of the Parties. Any such opinion shall not pertain to the consistency of the measure at issue with this Agreement. The mediator may meet the Parties participating in the mediation individually or jointly in order to facilitate a mutually agreed solution.

4. The procedure shall be confidential and shall take place in the territory of the Party to which the request was addressed, or by mutual agreement of the Parties participating in the mediation in any other location or by any other means.

5. The procedure shall normally be completed within 60 days following the date of the appointment of the mediator. At any stage of the procedure, the Parties to the mediation may discontinue the procedure by mutual agreement.

SECTION 2

IMPLEMENTATION*Article 5***Implementation of a Mutually Agreed Solution**

1. Where the Parties to the mediation have agreed on a solution to the trade obstacles caused by the measure subject to this procedure, the Parties shall take any measure necessary to implement the mutually agreed solution without undue delay.

2. The implementing Party shall inform the other Party in writing of any step or measure taken to implement the mutually agreed solution.

SECTION 3

GENERAL PROVISIONS*Article 6***Relation with the Dispute Settlement Mechanism**

1. The procedure under this mediation mechanism is not intended to serve as a basis for dispute settlement procedures under Title XII (Dispute Settlement) of this Agreement or any other agreement.

2. No Party to a mediation shall rely on or introduce as evidence in a dispute settlement procedure:

- (a) positions taken by the other Party in the course of the mediation procedure;
- (b) the fact that the other Party has indicated its willingness to accept a solution to the non-tariff measure subject to mediation; or
- (c) proposals made by the mediator.

3. An arbitration panel established according to this Agreement shall not take into account any information exchanged or any position

expressed by either party to the mediation procedure as evidence in any dispute settlement procedure.

4. The mediation mechanism is without prejudice to the rights and obligations of the Parties under Title XII (Dispute Settlement) of this Agreement.

Article 7

Time limits

Any time limit referred to in this Annex may be extended by mutual agreement of the Parties to the mediation.

JOINT DECLARATION BY COLOMBIA, PERU AND THE EU PARTY

Colombia and Peru may continue to apply the measures listed below, including their modifications and regulations, provided that the said modifications and regulations do not create conditions that are discriminatory or more restrictive to trade.

Unless otherwise provided in this Declaration, the need to maintain these measures shall be reviewed 10 years after the entry into force of this Agreement ⁽¹⁾.

COLOMBIA

- (a) quality controls on exports of coffee in accordance with Article 23 of Law 9 of 17 January 1991, and the contribution to be paid by coffee producers on exports of coffee in accordance with Chapter V of Law 101 of 23 December 1993, including modifications that do not have a significant effect on trade;
- (b) the measures related to the application of taxes on alcoholic beverages in accordance with Articles 202 to 206 of Law 223 of 20 December 1995 and Articles 49 to 54 of Law 788 of 27 December 2002, until two years after the entry into force of this Agreement. From the said date onwards, the measures adopted at national and/or local level on alcoholic beverages must be in conformity with Title III (Trade in Goods) Chapter 1 (Market Access for Goods), and in particular Article 21 thereof;
- (c) import controls on goods as provided for in Articles 3 and 6, paragraphs 1 and 2, of Decree 3803 of 31 October 2006, and import controls on automotive vehicles, including used vehicles and new vehicles imported after two years following the date of their manufacture, notwithstanding the provisions of Article 6 of Decree 3803 of 31 October 2006;
- (d) the contribution required on exports of emeralds in accordance with Article 101 of Law 488 of 24 December 1998.

PERU

- (e) Peru's measures relating to the import of used clothing and used footwear; used vehicles and used automotive engines, parts and spare parts for automotive use; used tyres; and used goods, machinery and equipment using radioactive sources ⁽²⁾.

This Declaration is an integral part of the Trade Agreement between the EU Party and Colombia and Peru.

⁽¹⁾ This provision does not apply to the measures referred to in paragraph (e) of this Declaration.

⁽²⁾ Law No 28514 and its modifications, Legislative Decree No 843 and its modifications, Emergency Decree No 079-2000 and its modifications, Supreme Decree No 003-97-SA and its modifications, Law No 27757 and its modifications; and Emergency Decree 050-2008 and its modifications

JOINT DECLARATION

The EU Party recalls that States with which it has established a Customs Union at the time of signature of this Agreement and whose products do not benefit from the tariff concessions under this Agreement have the obligation, in relation to countries which are not members of the European Union to align themselves on the Common Customs Tariff and, progressively, with the preferential customs regime of the European Union, taking the necessary measures and negotiating agreements on a mutually advantageous basis with the countries concerned. Consequently, the EU Party has invited the signatory Andean Countries to this Agreement to enter into negotiations with those States as soon as possible.

Signatory Andean Countries inform that they will make their best efforts to negotiate with those States agreements establishing free trade areas.
